

You are not going to believe this shit.

WHAT THE FUCK IS WRONG WITH THE US NAVY?

The US Navy just launched a ship named after Harvey Milk - nearly 70 years after the gay rights icon was discharged from the service due to his sexuality

The USNS Harvey Milk set sail in San Diego in a commemorative ceremony on Saturday.

- The ship is one of six named after prominent civil rights leaders, including Sojourner Truth and John Lewis.
- The LGBTQ icon and one of the first openly gay politicians in America was kicked out of the Navy due to his sexuality. **AS HE SHOULD BE. JUST MY OPINION.**

More than 70 years after gay rights activist Harvey Milk was forced out of the US Navy due to his sexuality, the service launched a ship named in his honor.

On Saturday, the USNS Harvey Milk set sail in San Diego, one of six ships [dedicated to prominent civil rights leaders](#), including Sojourner Truth, John Lewis, and Robert F. Kennedy. Milk served four years in the Navy in the 1950s, in roles such as diving officer and lieutenant aboard a Korean War rescue ship before he was discharged.

The ship was [launched in a ceremony](#) led by **Navy Secretary Carlos Del Toro**, who spoke out about the needs of the service "not just to amend the wrongs of the past (**WHAT WRONGS?**) but to give inspiration to all of our LGBTQ community leaders." **YOUR LGBTQ COMMUNITY, NOT MINE.**

"For far too long, sailors like Lt. Milk were forced into the shadows or, worse yet, forced out of our beloved Navy," **Del Toro said** at the event. "That injustice is part of our Navy history, but so is the perseverance of all who continue to serve in the face of injustice. **"If you loved the NAVY like you say you wouldn't sponsor this crap.**

Milk served as one of America's first openly gay politicians when he was elected to the San Francisco Board of Supervisors in 1977. As a politician and activist, he fought for progressive policies, including banning housing and employment discrimination on the basis of sexuality.

The LGBTQ icon, along with San Francisco Mayor George Moscone, was assassinated in 1978 by former city supervisor Dan White. In the decades since his death, Milk has been praised for his role in furthering equal rights for gay Americans.

Others in attendance at the event included Stuart Milk - Milk's nephew and co-founder of the Harvey Milk Foundation - as well as **former Navy officer Paula M. Neira, clinical program director for the John Hopkins Center for Transgender Health, according to the Associated Press.** So glad you could break away from the operating room performing dichotomies.

"The secretary of the Navy needed to be here today, not just to amend the wrongs of the past, but to give inspiration to all of our LGBTQ community leaders who served in the Navy, in uniform today and in the civilian workforce as well too, and to tell them that we're committed to them in the future," **Del Toro said** on Saturday. **WHAT WRONGS?**

I BELIEVE THE SECTARY OF THE NAVY WOULD BE BETTER SERVED WORRING ABOUT THE YELLOW MENECE (THE CHINEESE NAVY) FOR THE UNFORMED AND THE SAD SHAPE OF TODAY'S FLEET. NOT TO MENTION THE 30 BILLION DOLLARS THEY PISSED AWAY ON A FLEET OF LCS'S THAT WILL NEVER SEE COMBAT,

THE NUMBER OF SHIP COLLISIONS AND A MULITUDE OF OTHER PROBLEMS TOO LONG TO LIST HERE

I don't think the rest of the NAVY agrees with the sectary of the NAVY. At least all of the sailors I know.

Just my opinion let me know what you think.
